Regarding new building height recommendations

The reduced building height is not so hard to take. It is well known among many Seldovians that I had planned to build a shorter haus than that in place of my existing Susan Lake home. It is blue printed with the third story almost all glass, with a nearly flat roof. Now to accomodate the new wording, I'll have to set the first story half in the ground to make it 2 and 1/2 stories. Obviously, to acheive the same height and view, I'll have to use much taller ceilings per level. The 2 and 1/2 story wording is directly aimed in vain at discouraging my plans to develop my property. I refuse to sell, even as I am removing all possessions from the lot. The existing buildings will go, and taxable structure will cease to exist, until I'm good and ready to rebuild. This wording is only a temporary setback if passed. It will not go unnoticed.
