Hydro Power . . .

With the recent letter from HEA speaking to the high rates and their inability to make it affordable, telling us they are doing their best, Is not the writing on the wall! We have a blessing on this side of the bay, that many do not, Hydro power, at a level that will allow affordable growth with in this community because its cheap, heating with cheap, reliable power sure beats putting up 10 cords and still being taken to the wood shed by HEA, for those that stay year round this would come as a welcome relief. It is an issue of quality of life, public health and safety, the community would blossom, and no longer would we be vulnerable, sell the excess to HEA and put some \$ back in the pocket of this community which is so desperately needed, now is the time to examine our potential and put the leverage for growth back in our hands.
